Voice over IP First-Step Kevin Wallace

Your first step into the world of IP telephony

- No IP telephony experience required
- Includes clear and easily understood explanations
- Makes learning easy

Your first step to the world of IP telephony begins here!

- Learn how voice and data communications merge in voice-over-IP technology
- Use this reader-friendly guide to understand the benefits of this technology
- Explore real-life applications and theories through case studies in every chapter

Welcome to the world of voice over IP

We use either a telephone or e-mail for much of our day-to-day communication. Today, these two worlds are merging, and companies can place phone calls over their existing data network infrastructures using a technology called voice over IP (VoIP).

No prior experience with VoIP technology is required

Voice over IP First-Step is anyone's introduction to the world of VoIP networks. The concepts in this book are presented in plain language, so you don't need in-depth background knowledge to comprehend the technologies covered. If you work with data networks, if you work with telephony networks, if you're a home user interested in how VoIP can reduce your monthly phone bill, or if the concept of VoIP simply intrigues you, this book is for you.

From reader reviews:

Cornell Smith:

Information is provisions for those to get better life, information today can get by anyone from everywhere. The information can be a know-how or any news even a problem. What people must be consider while those information which is in the former life are hard to be find than now could be taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you get the unstable resource then you get it as your main information you will have huge disadvantage for you. All those possibilities will not happen throughout you if you take Voice over IP First-Step as the daily resource information.

Silvia Washington:

Why? Because this Voice over IP First-Step is an unordinary book that the inside of the book waiting for you to snap this but latter it will distress you with the secret the idea inside. Reading this book alongside it was fantastic author who have write the book in such wonderful way makes the content inside of easier to understand, entertaining way but still convey the meaning thoroughly. So , it is good for you for not hesitating having this anymore or you going to regret it. This amazing book will give you a lot of rewards than the other book have such as help improving your ability and your critical thinking means. So , still want to delay having that book? If I were being you I will go to the guide store hurriedly.

David Packard:
