Archaeological Evidence for the Bible: Exciting Discoveries Verifying Persons, Places and Events in the Bible Charlie H. Campbell

Is the Bible a book of mythology? Are the persons, places and events in the Bible fabrications by deceitful men? Many critics of Christianity say *yes* but archaeological discoveries say *no*. For the past 150 years archaeologists have been verifying the exact truthfulness of the Bible's detailed records of various events, customs, persons, cities, nations, and geographical locations. In this book Charlie Campbell discusses dozens of fascinating discoveries—both old and new—that have overturned critics' theories of the Bible and helped to confirm the historical reliability of the Scriptures. If you have questions or doubts about the reliability of the Bible, this book will be a great help to you. This full-color edition contains approximately 90 color photographs.
