The U.S. is in deep trouble. America's financial house of cards is beginning to concern informed individuals (and foreigners) while the vast majority appear either indifferent or unaware of our nation's serious vulnerability. America's Financial Reckoning Day is a wake-up call to the baby-boom generation that a hyperinflationary depression and America's loss of leadership in the world is a distinct possibility in the near future. Chuck Coppes has carefully researched and skillfully presented a compelling case for America's obsolescence and political paradigms that will help redefine the 21st Century. This is a hard-hitting book about banking intrigue, political malfeasance, treachery, and a prophetic odyssey that reads like an Orwellian novel. It is also a book about survival that will challenge your personal and financial priorities as you read through the final chapters. This book serves as a good reminder that our lives have meaning and significance in God's plan for the future. For a thorough understanding of the critical times we are living in, it is recommended that you find a quiet place on a peaceful weekend and read this fascinating book in its entirety - and then pass it along to someone you care about.
