Applied Psychology

Applied Psychology

For a significant portion of psychology students, their reason for choosing an undergraduate degree in psychology is their interest in applied psychology and a desire to use psychological knowledge to help solve personal and social problems. With this in mind, this textbook has been designed to satisfy these needs for applied psychology teaching at all undergraduate levels.

Applied Psychology is designed to introduce students to the main areas of applied psychology (Clinical Psychology, Health Psychology, Educational Psychology, Occupational Psychology, Forensic Psychology, Sports & Exercise Psychology, Counselling Psychology and Teaching Psychology) from UK, European and international perspectives. It also introduces the core psychological knowledge that underpins these applied and professional areas. As a result, students learn core knowledge from the five main areas of psychology, as well as acquiring a thorough grounding in how this knowledge is applied, and the professional issues associated with that application.

Highlights include a broad range of teaching and learning features designed to help the student learn and the teacher teach. These include: Focus Points, Colour Illustrations, Activity Boxes, Research Methods, Case Histories, Self-Test and Essay Questions, Learning Outcomes and Section Summaries, a Glossary as well as Links to Journal Articles and Further Reading.

The chapters on Counselling Psychology and Teaching Psychology are available online via the Student Companion Site at: <http://tinyurl.com/c3zvtvj>

The text is written to be accessible to Level 1 Introductory Psychology students, and also to provide the core knowledge and professional information that students at Levels 2 and 3 would require.

Now, why not striving Applied Psychology that give your entertainment preference will be satisfied simply by reading this book. Reading practice all over the world can be said as the opportunity for people to know world much better then how they react toward the world. It can't be stated constantly that reading habit only for the geeky person but for all of you who wants to possibly be success person. So , for all of you who want to start reading through as your good habit, you can pick Applied Psychology become your personal starter.

Bruno Reed:

As a student exactly feel bored for you to reading. If their teacher expected them to go to the library or even make summary for some publication, they are complained. Just tiny students that has reading's internal or real their leisure activity. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that looking at is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this Applied Psychology can make you feel more interested to read.
