School leadership internships are the bridge between classroom teachers and first-time leadership positions. Research shows that quality internships are equally as important as the graduate programs themselves in establishing leadership practices that improve teaching, learning, and school conditions.

This book was written as a stand-alone graduate textbook and serves as a guide and support for creating and managing quality school leader internship programs. It provides step-by-step guidance for interns, their supervisors, and their faculty on how to initiate an internship and evaluate interns' work.

In this updated third edition, the authors have aligned the internship to the revised ISLLC standards, making this book critical for the over 500 leadership preparation programs nationwide and the thousands of school districts that support leadership candidates.
