From Telegraph to Light Bulb with Thomas Edison (My American Journey) Kit Deborah Hedstrom-Page

For students ages eight to fourteen, the MY AMERICAN JOURNEY series presents a true history of the United States with a cleverly helpful dose of fiction.

Each of the ten books recounts highlights from the life of a political, creative, or cultural legend. But to engage a student's interest from page one, a fictional narrator—usually a school-age person who somehow knew the main hero—tells the story with youthful vigor.

Adding to Deborah Hedstrom-Page's unique lessons are illustrations from Sergio Martinez (Max Lucado's *You Are Special*). Each book also contains study questions and activity pages for every chapter.

Thomas Edison (1847–1931) was a bright American inventor and businessman best-known for his patent of the light bulb. His story as retold here teaches readers about the core value of hope—expecting good things to happen.
