“MMS Simplified for Hepatitis finally got to my attention. I was very impressed. Thank you for all the kind words. I would like to see you sell many of these books. I could put a link from my web site to yours. I would mention your books. That should sell a few books as I get quite a few thousand hits on my web site each week.

I have indeed, just as you mentioned, developed a few protocols that I think are important. My last protocol has taken a number of cancer victims literally out of their death beds and back to work. I wish you every success in the world to sell many of your books...that could be important.
