The Power Elite and the Secret Nazi Plan Dennis L. Cuddy, Ph.D.

With military defeat of the Nazis in World War II, many people began to fear the threat of communism. However, what most people don't realize is that the Power Elite (PE) has used both communism and Nazism in a dialectical process to bring about a techno-feudal world socialist government. While much of the world celebrated the Allied defeat of Hitler in 1945, what they didn't know was that the Nazis were winning the war for control of much of the world's economy. By 1943, Hitler's second-in-command, Martin Bormann, had \$180 billion in assets (today worth trillions of dollars) that he could use to execute a secret plan to spread national socialism around the world. In 1944 Sumner Welles wrote in *The Time for Decision* of a secret Nazi plan to be fulfilled perhaps two generations from now. Moreover, the secret Nazi plan is simply one part of a larger PE plan to control the world. This book covers all the above, including how America is being moved more and more toward a techno-feudal national socialism in order to fit into the PE's master plan.
