From Immigrant to Inventor has met with a reception which is certainly very gratifying. Evidently it conveyed a message which was timely. Hundreds of letters which I have received since the book was published, eighteen months ago, convince me that the message was particularly welcome to the youth of this country. It was intended for them, and I am certainly happy in the knowledge that it found in their hearts an enthusiastic response. Teachers of science and of religion have also assured me that they, too, found in the book a welcome message, and urged that a less expensive edition of it be published, so as to reach a much wider circle of readers. This edition is a response to these earnest requests. I hope that the new readers of this less expensive edition will find in it just as welcome a message as the readers of the older editions did. (Typographical errors above are due to OCR software and don't occur in the book.)
