Mathematics in Early Years Education

Ann Montague-Smith, Alison J. Price

Mathematics in Early Years Education Ann Montague-Smith, Alison J. Price

This third edition of the best-selling *Mathematics in Nursery Education* provides an accessible introduction to the teaching of mathematics in the early years. Covering all areas of mathematics learning – number and counting, calculation, pattern, shape, measures and data handling – it summarises the research findings and underlying key concepts and explains how adults can help children to learn through practical experiences, discussion and more direct intervention.

This new edition has been fully updated to incorporate the latest research and thinking in this area and includes:

- why mathematics is important as a way of making sense of the world
- how attitudes to mathematics can influence teaching and learning
- how children learn mathematics
- new material on sorting, matching and handling data
- ideas for observation and questioning to assess children's understanding
- examples of planned activities
- suggestions for language development
- assessment criteria.

This textbook is ideal for those training to be teachers through an undergraduate or PGCE route, those training for Early Years Professional Status and those studying early childhood on foundation or honours degrees as well as parents looking to explore how their young children learn mathematics. This will be an essential text for any Early Years practitioner looking to make mathematics interesting, exciting and engaging in their classroom.

From reader reviews:

Joel Faulkner:

Playing with family inside a park, coming to see the water world or hanging out with good friends is thing that usually you might have done when you have spare time, after that you don't try thing that really opposite from that. One particular activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love Mathematics in Early Years Education, you may enjoy both. It is fine combination right, you still would like to miss it? What kind of hangout type is it? Oh come on its mind hangout fellas. What? Still don't have it, oh come on its identified as reading friends.

Raymond Hollander:

Are you kind of busy person, only have 10 or even 15 minute in your day time to upgrading your mind skill or thinking skill actually analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your short time to read it because all this time you only find reserve that need more time to be read. Mathematics in Early Years Education can be your answer as it can be read by you actually who have those short spare time problems.

Daphne Shew:

Is it you who having spare time subsequently spend it whole day by means of watching television programs or just lying on the bed? Do you need something totally new? This Mathematics in Early Years Education can be the response, oh how comes? It's a book you know. You are thus out of date, spending your extra time by reading in this brand new era is common not a nerd activity. So what these guides have than the others?

Ismael Soliz:

A lot of publication has printed but it differs from the others. You can get it by world wide web on social media. You can choose the best book for you, science, comedy, novel, or whatever by simply searching from it. It is called of book Mathematics in Early Years Education. You can include your knowledge by it. Without making the printed book, it could possibly add your knowledge and make an individual happier to read. It is most significant that, you must aware about guide. It can bring you from one location to other place.
