The Holocaust Never Happened & The CIA Killed JFK: Third Printing Revised Jorgen Lars Rasmussen

The Holocaust Never Happened & The CIA Killed JFK is the most provocative, stunning repertoire of solid facts never before brought forward together in historic documentation. The critical information available in this manuscript destroys the hoax of the six-million and exposes the enormous cover-up involved in the Warren Commission Report on the assassination of the 35th President of the United States, John Fitzgerald Kennedy. This volume confirms the involvement of hundreds of individuals and several government agencies responsible for the assassination. The 95+ selective photos and illustrations visually enrich the stories that have never been fully explained until now. The publisher, Jon Larsen Shudlick a former Army Chief Investigator, realizes that this book is only the second best documentation of the many available on the JFK assassination. In his opinion Mary's Mosaic by author Peter Janney, gives you laser-like penetration into the masterminds of the most abhorrent known assassination in American history.

Prolific author, Jorgen Lars Rasmussen, a World War II veteran, brings to light empirical evidence never before written about the bizarre circumstances surrounding the United States government and its unnecessary entry into its many wars of the last 100 years. Rasmussen, having experienced that period of history as a combat veteran standing on the rubble of Essen, Germany surveying the total devastation, gives convincing argument early on in this memoir dispelling the myth of the Holocaust six-million figure that began perpetuating a few years after the end of World War II.

“All truth passes through three stages. First it is ridiculed. Second, it is violently opposed. Third, it is accepted as being self-evident.” Arthur Schopenhauer 1788-1860

“In politics, nothing happens by accident. If it happens, you can bet that it was planned that way.” Franklin Delano Roosevelt 1882-1945
